

AI INTERNATIONAL COMPETITION IN ARTIFICIAL INTELLIGENCE

october - november 2026

FIRST INFORMATION ANNOUNCEMENT

Igor Sikorsky Kyiv Polytechnic Institute invite you to participate in the International Student Research Competition in Artificial Intelligence!

This is a great opportunity for talented students to present themselves as researchers capable not only of applying but also shaping new ideas and approaches in the field of artificial intelligence and to make themselves known internationally.

The competition opens doors to the AI research community, recognizes innovation, creativity, and depth of technical thinking, and supports the potential of young talents.

Bachelor's and Master's students are welcome to participate.
Don't miss your chance — join the future of science today!
